

National Association of State
Controlled Substances Authorities

NASCSA's Data Integrity PMP Subcommittee has partnered with Talem Health to create an on-demand continuing education activity for pharmacists and pharmacy technicians to improve PMP data.

Please help us share this education with pharmacists and pharmacy technicians by sharing it with your PMP users, Boards of Pharmacy, State Licensing Agencies, or State and National Pharmacy Associations. Below is some sample messaging, links, and QRU code to help us spread the word!

- Please visit <https://ce.talemhealth.com/a/HLQIJS> for 1 hour of free ACPE continuing education credit for pharmacists and pharmacy technicians. This program will provide insight into how pharmacy staff's data entry process affects prescription monitoring program data, clinical decision making, and downstream data analysis.
- Take advantage of this free ACPE accredited educational opportunity providing 1 hour of continuing education for pharmacists and pharmacy technicians. This program, developed in partnership with NASCSA and 12 prescription monitoring program (PMP) administrators, analyzes the importance and value of complete, accurate data reported by dispensers to PMPs and assesses the impact of intentional or non-intentional data entry errors and data omissions on patient safety. It also discusses the downstream impacts of pharmacy-reported PMP data on clinical decision-making processes and helps pharmacy staff identify and implement changes that can be made in their practice setting to improve PMP data integrity. Visit <https://ce.talemhealth.com/a/HLQIJS>.

To measure outcomes, please email us at townseca@dhec.sc.gov and nikki.griffis@mt.gov and let us know when and how this was shared! We would love to hear from you!
