Kentucky Board of Pharmacy

(New Administrative Regulation)

201 KAR 2:171. Computerized recordkeeping.

RELATES TO: KRS 217.215, 217.216, 315.191

STATUTORY AUTHORITY: KRS 217.215(2), 315.191(1), (a), (f)

NECESSITY, FUNCTION, AND CONFORMITY: KRS 217.215(2) provides for the board
to establish administrative regulations relating to the storage and retrieval of
prescriptions records, including computerized recordkeeping. This administrative
regulation provides standards for those using computerized recordkeeping.

Section 1. The following information shall be entered into the system:

(1) All information pertinent to a prescription shall be entered into the system,
including, but not limited to, each of the following:

(a) The prescription number;
(b) The patient's name and address;
(c) The prescriber's name and address;
(d) The prescriber's Federal Drug Enforcement Administration number, if appropriate;
(e) Refill authorization;
(f) Any prescriber's instructions or patient's preference permitted by law or administrative
regulation;
(g) The name, strength, dosage form, and quantity of the drug dispensed originally and
upon each refill; and

(h) The date of dispensing of the prescription and the identifying designation of the
dispensing pharmacist for the original filling and each refill.

(2) The entries shall be made into the system at the time the prescription is first filled
and at the time of each refill, except that the format of the record may be organized so
that the data already entered may appear for the prescription or refill without reentering
that data. Records that are received or sent electronically may be kept electronically.
The dispensing pharmacist shall be responsible for the completeness and accuracy of
the entries.

(3) The original prescription and a record of each refill, if received written or oral, shall
be preserved as a hard copy for a period of three (3) years and thereafter be preserved
as a hard copy or electronically for no less than an additional two (2) years. The original
prescription and a record of each refill, if received by facsimile, shall be preserved as a
hard copy, the original electronic image, or electronically for a period of three (3) years
and thereafter be preserved as a hard copy, the original electronic image, or
electronically for no less than an additional two years. The original and electronic
prescription shall be subject to inspection by authorized agents. An original prescription
shall not be obstructed in any manner.

(4) The original prescription and a record of each refill, if received as an e-prescription,
shall be preserved electronically for a period of no less than five (5) years. The electronic
prescription shall be subject to inspection by authorized agents. An original prescription
shall not be obstructed in any manner.

(5) The required information shall be entered into the system for all prescriptions filled
(6) The system shall provide adequate safeguards against improper manipulation or alteration of the data.

(7) The system shall have the capability of producing a hard-copy printout of all original and refilled prescription data as required in Section 1 of this administrative regulation. A hard-copy printout of the required data shall be made available to an authorized agent within forty-eight hours of the receipt of a written request.

(8) The system shall maintain a record of each day’s prescription data as follows:

(a) This record shall be verified, dated, and signed by the pharmacist(s) who filled those prescription orders either:

1. Electronically;

2. Manually; or

3. In a log.

(b) This record shall be maintained for no less than five (5) years; and

(c) This record shall be readily retrievable and shall be subject to inspection by authorized agents.

(9) An auxiliary recordkeeping system shall be established for the documentation of refills if the automated data processing system is inoperative for any reason. The auxiliary system shall insure that all refills are authorized by the original prescription order and that the maximum number of refills is not exceeded. If the automated data processing system is restored to operation, the information regarding prescriptions filled and refilled during the inoperative period shall be entered into the automated data processing system within seventy-two (72) hours.
(10) Controlled substance data shall be identifiable apart from other items appearing in
the record.

(11) The pharmacist shall be responsible to assure continuity in the maintenance of
records throughout any transition in computerized record systems utilized.

Section 2. A computer malfunction or data processing services provider's negligence
shall not be a defense against charges of improper recordkeeping.

Section 3. This administrative regulation is not applicable to the recordkeeping for drugs
prescribed for and administered to patients confined as inpatients in an acute care
facility.
